

3b, the Commission concluded denial would result in no change in current environmental impacts.

For fire zone FH-FZ-5, the Commission concluded that, due to the high combustible loading associated with this fire zone, upgrading to a 3-hour fire barrier would have a measurable benefit. Denial of the proposed action with respect to fire zone FH-FZ-5 would result in no change to current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for TMI-1.

Agencies and Persons Consulted

In accordance with its stated policy, on June 6, 1997, the staff consulted with the Pennsylvania State official, Mr. S. Maingi of the Department of Environmental Protection, Bureau of Radiation Protection, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated August 16, 1996, as supplemented by letters dated August 28, 1996, and January 3, 1997, which are available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Law/Government Publications Section, State Library of Pennsylvania, Walnut Street and Commonwealth Avenues, Harrisburg, PA.

Dated at Rockville, Maryland, this 3rd day of July 1997.

For the Nuclear Regulatory Commission.

Patrick D. Milano,

Acting Director, Project Directorate I-3, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.
